1 - At 13th of May 2012 our 9. edition of »Discovering the Carst region« walk will take place at Temnica.

This is an IVV walk. Tracks (6, 12 and 18 km) are guiding over the pastures, on footpaths, a little part on white roads and asphalt out of town bustle. The nature here is offering to walkers a relax, quietness. If the weather is good the panoramic views over the Alps and the Adriatic Sea are very pleasant. Very rich and gratis are refreshment points on the trails and at the end. Partecipation for walk is 8€ with meal and drinks.

2. IVV guided walks for walkers from abroad too

Over all the year we are offering to walkers our guided walks. On this walks we are exploring the different points of our little but beatifull country. If one is interesting how the walks are, he can look up to our web site www.pohodnikitriglav.si. Nearly all Sundays on our calender are occupied. If groups from abroad are interested to do a guided walk in our country, we can offer them our hospitality.

Some details from the walk on fhotos

At the beggining of the walk of 2011 the partecipants made some gym.
